

Tim Sedney (Hidden Harbor) advised he's built a new sea wall behind Rum Runners. He also built the barge that is Woody's floating bar and grill. He's repaired docks and plenty of property work and he does good work. He's also repaired boat bottoms by welding.

Mike Jennison (Jennison Corp) advised he's done yacht work for him. He's also done a lot of excavating for them and building work. He knows he does a lot of lake bank work and retaining wall work. Jennison corp is in the Pittsburgh area and he's done a lot of retaining wall work there. He also said he does good work.

Alex Howling. Highly recommends. He may not be the cheapest but he wouldn't have any other person build his retaining wall. He's worked with him for over 16 years. Honest, and ethical. Very knowledgeable about soil composition and practical knowledge.

More details of his workmanship are on Facebook. Please see [A&K Marine Construction](#).
