

Ball Pavilion

Changes effective Wednesday July 7th, 2021, for Residents and Families

MASKING is still required in Long Term Care settings

Visitation- NEW UPDATE

Visitation will continue to be scheduled with an appointment. When scheduling, you will sign up for an indoor or outdoor visit. You will still be required to screen prior to your visit. **Will increase to 3 visitors per resident per visit.**

NEW: Pets can start visiting residents again for indoor and outdoor visits. We must have updated shot records from vet and flea treatment on file for pets to visit at Brevillier Village. Please contact [Marti Colliss](#) Director of Recreation or Kayla Turk for any questions.

We are removing the age limit for children. We do NOT recommend bringing children under the age of 2 years old, **but that is a personal decision.**

Residents and Visitors that are **VACCINATED AND NON-VACCINATED** will be able to be on the grounds for walks or sit by the front door if they do not want to walk the grounds. All Visitors and non-vaccinated residents must wear a mask. Visits are not to exceed an hour. If visit is scheduled outside and weather does not cooperate you can check and see if a slot indoors is available but if not, the visit will be rescheduled.

If you select an outdoor visit: **VACCINATED VISITORS** will be able to go to resident room to get resident and sign them out and back in ON THE UNIT in the building.

Indoor visits for Vaccinated and Non-Vaccinated residents will remain in the front conference room and will be **1-hour visits**. PPE will be dependent on your vaccination status.

VACCINATED visitors may take residents for car rides **and/or visits at family member homes (for less than 24 hours)** and should wear masks. We do NOT encourage **NON-VACCINATED** visitors and **NON-VACCINATED** residents to go for a car ride **or go to a family members home for less than 24 hours**. But if they do, the resident will need to quarantine for 5 days or longer if they develop symptoms.

ISOLATION/QUARANTINE

VACCINATED RESIDENTS:

Emergency Room Visits- no quarantine required unless they have been there more than 24 hours or if resident develops symptoms. If this occurs, they will need to Quarantine for at least 7 days with a COVID test on day 5.

Continued on back...

Residents admitted from home or hospital stay on admission or readmission will be required to quarantine for 7 days with COVID test on Day 5. If they develop symptoms their quarantine could be extended.

Residents who go to public events such as dinner at a crowded restaurant, wedding, large family event, **family home visit (over 24 hours)**, or traveling/vacationing etc. when they return, they are required to quarantine for 5 days with a BINEX test on day 5. Their quarantine could be extended if they begin to show any symptoms.

NON-VACCINATED RESIDENTS

NON-VACCINATED residents will continue to quarantine for 14-days regardless of whether they are in the Emergency Room, hospital, **go out to a crowded public event**, go home with family (**over 24 hours**), etc. They will be tested on day 12 with a Nasal Swab and released on day 15 or when we receive a negative test result.

Appointments for visits are still necessary as we are continuing to limit the number of people on the Village property to avoid unnecessary exposure.

*****Ball Pavilion must be extra cautious since residents reside in semi-private rooms and not all residents are vaccinated*****

At any time, these new guidelines can be suspended or stopped per county, state, or federal regulations.

Please feel free to call if you have any questions 814-899-8600. We appreciate your continued patience, cooperation, and support.
