

Barnabas Court **SOUTH**

Changes effective Friday September 24th, 2021, for Residents and Families.

MASKING is still required in Long Term Care settings

Visitation- New Update

NEW: This update is in consideration of the new COVID Delta Variant and anticipation of continued high positivity rates during fall and winter.

Visitation will no longer need to be scheduled for SOUTH but, YOU STILL MUST STOP at Ball Pavilion to screen and get the proper PPE.

We are removing the age limit for children, and we are increasing visits to 3 people per appointment. We do NOT recommend bringing children under the age of 2 years old, but this is a personal decision.

Pets can start visiting residents again for indoor and outdoor visits. We must have updated shot records from vet and flea treatment on file for pets to visit at Brevillier Village. Please contact Marti Colliss Director of Recreation or Kayla Turk for any questions.

NEW: For resident birthdays or special event please call to make special arrangements during months October 2021 thru April 2022. The events will be limited to 6 people including resident. Call Jean LaFuria or Vickie Gilchrist to make arrangements.

Residents and Visitors that are **VACCINATED AND NON-VACCINATED** will be able to be on the grounds for walks or visit by the front door at North or in the Courtyard in South as long as **ALL** Visitors/Resident wear a mask, weather permitting.

Outdoor visits are not to exceed 1 ½ hour and indoor visits not to exceed 2 hours. **INDOOR** visits must be in resident apartment and not in public spaces. PPE will remain the same dependent on your vaccination status.

VACCINATED visitors may take residents for car rides and/or visits at family member homes (for less than 24 hours) and should wear masks. We do NOT encourage **NON-VACCINATED** visitors and **NON-VACCINATED** residents to go for a car ride or go to a family members home for less than 24 hours. But if they do, the resident will need to quarantine for 5 days or longer if they develop symptoms.

ISOLATION/QUARANTINE

VACCINATED RESIDENTS:

Emergency Room Visits- no quarantine required unless they have been there more than 24 hours or if resident develops symptoms. If this occurs, residents will need to Quarantine for at least 7 days with a COVID test on day 5.

Continued on back...

Residents coming from home or hospital stay on admission or readmission will be required to quarantine for 7 days with BINEX test on Day 5. If they develop symptoms their quarantine could be extended.

Residents who go to public events such as dinner at a crowded restaurant, wedding, large family event (meaning more than 4-5 people) or gathering, family home visit (over 24 hours), or traveling/vacationing etc. when they return, they are required to quarantine for 5 days with a BINEX test on day 5. Their quarantine could be extended if they begin to show any symptoms.

NON-VACCINATED RESIDENTS

NON-VACCINATED residents will continue to quarantine for 14-days regardless of whether they are in the Emergency Room, hospital, go out to a crowded public event, go home with family (over 24 hours), etc. They will be tested on day 12 with a Nasal Swab and released on day 15 or when we receive a negative test result.

We do not encourage residents to be in groups or with individuals who are not vaccinated, especially when experiencing COVID surges.

*****At any time, these new guidelines can be suspended or stopped per county, state, or federal regulations.*****

Please feel free to call if you have any questions 814-899-8600. We appreciate your continued patience, cooperation, and support.
